## Friday: Much Cooler with a Chance of Rain

### Forecast High Temperatures Friday

Weather Forecast Office  
San Angelo, TX  
Issued Nov 27, 2020 2:00 AM CST

A cold front early Friday morning will bring partly to mostly cloudy skies, much cooler temperatures, and an increasing chance for rain as the day goes on, including a chance for a few thunderstorms. Highest rain chances will be in the southern counties, especially near I-10.

	Rain Chances Friday		
	Morning	Afternoon	Evening
Northern Counties	10%	10%	20-30%
Southern Counties	30%	30-40%	50-60%

**A cold front early Friday morning will bring much cooler conditions, partly to mostly cloudy skies, and a chance of rain and a few thunderstorms to the region. Highest rain chances will be near the I-10 corridor.**

## Friday

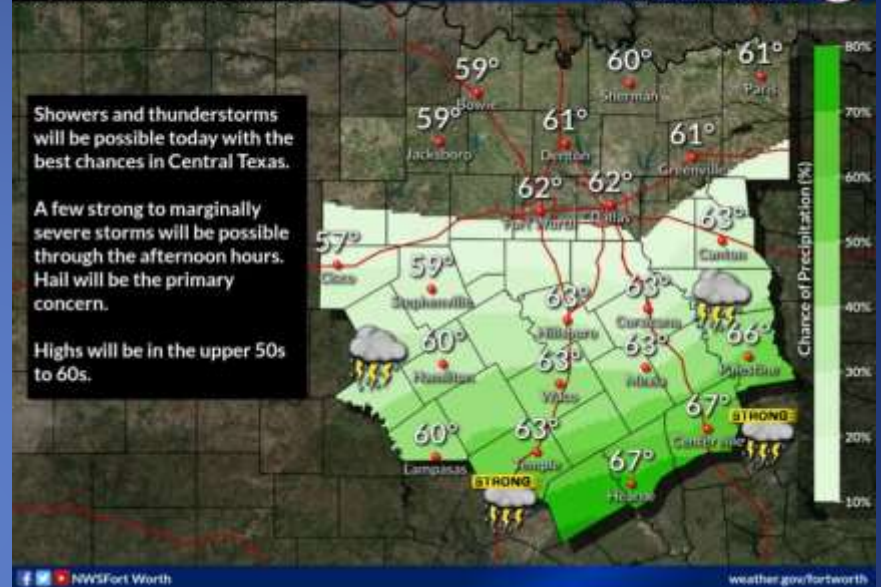

### Showers and Thunderstorms in Central Texas

Weather Forecast Office  
Fort Worth, TX  
Issued Nov 27, 2020 3:35 AM CST

Showers and thunderstorms will be possible today with the best chances in Central Texas.

A few strong to marginally severe storms will be possible through the afternoon hours. Hail will be the primary concern.

Highs will be in the upper 50s to 60s.

**Showers and thunderstorms are expected across Central Texas today. A few strong to marginally severe storms will be possible through the afternoon hours with hail being the primary concern. Highs will be in the upper 50s to 60s.**

# Hazardous Weather

## Precipitation Chances Tonight

Valid Fri 6:00PM through Sat 6:00AM CST

Weather Forecast Office  
Shreveport, LA  
Issued Nov 27, 2020 3:34 AM CST

Showers and thunderstorms will become more confined to portions of Deep East Texas and Central Louisiana tonight and into early Saturday morning.

## Rain Likely with a Few Thunderstorms

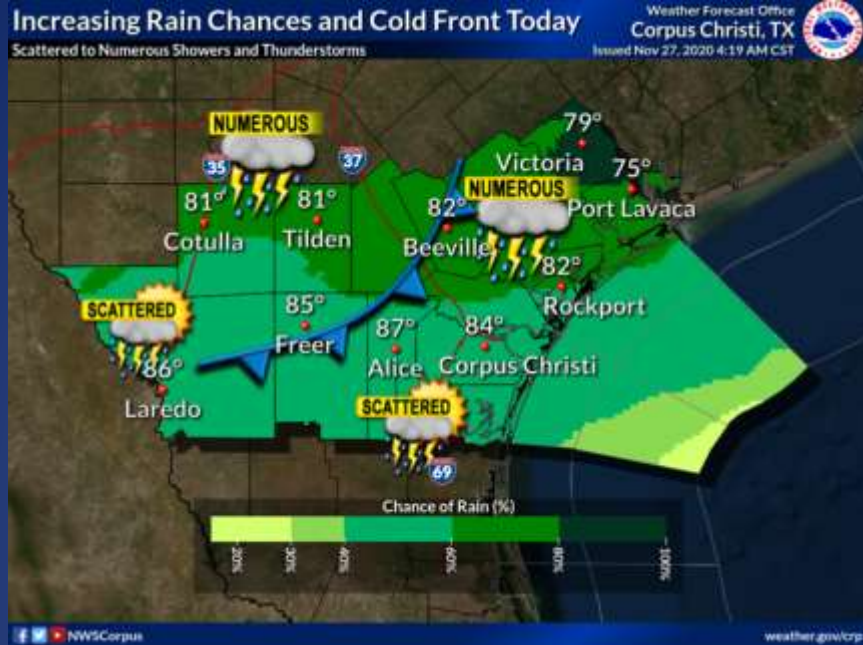

Weather Forecast Office  
Austin/San Antonio, TX  
Issued Nov 27, 2020 3:57 AM CST

Today will be soggy and turning cooler with numerous showers and scattered thunderstorms expected along and either side of a cold front. A few storms could become strong along the front. High temperatures will range from the low 60s north to near 80 south.

# Hazardous Weather

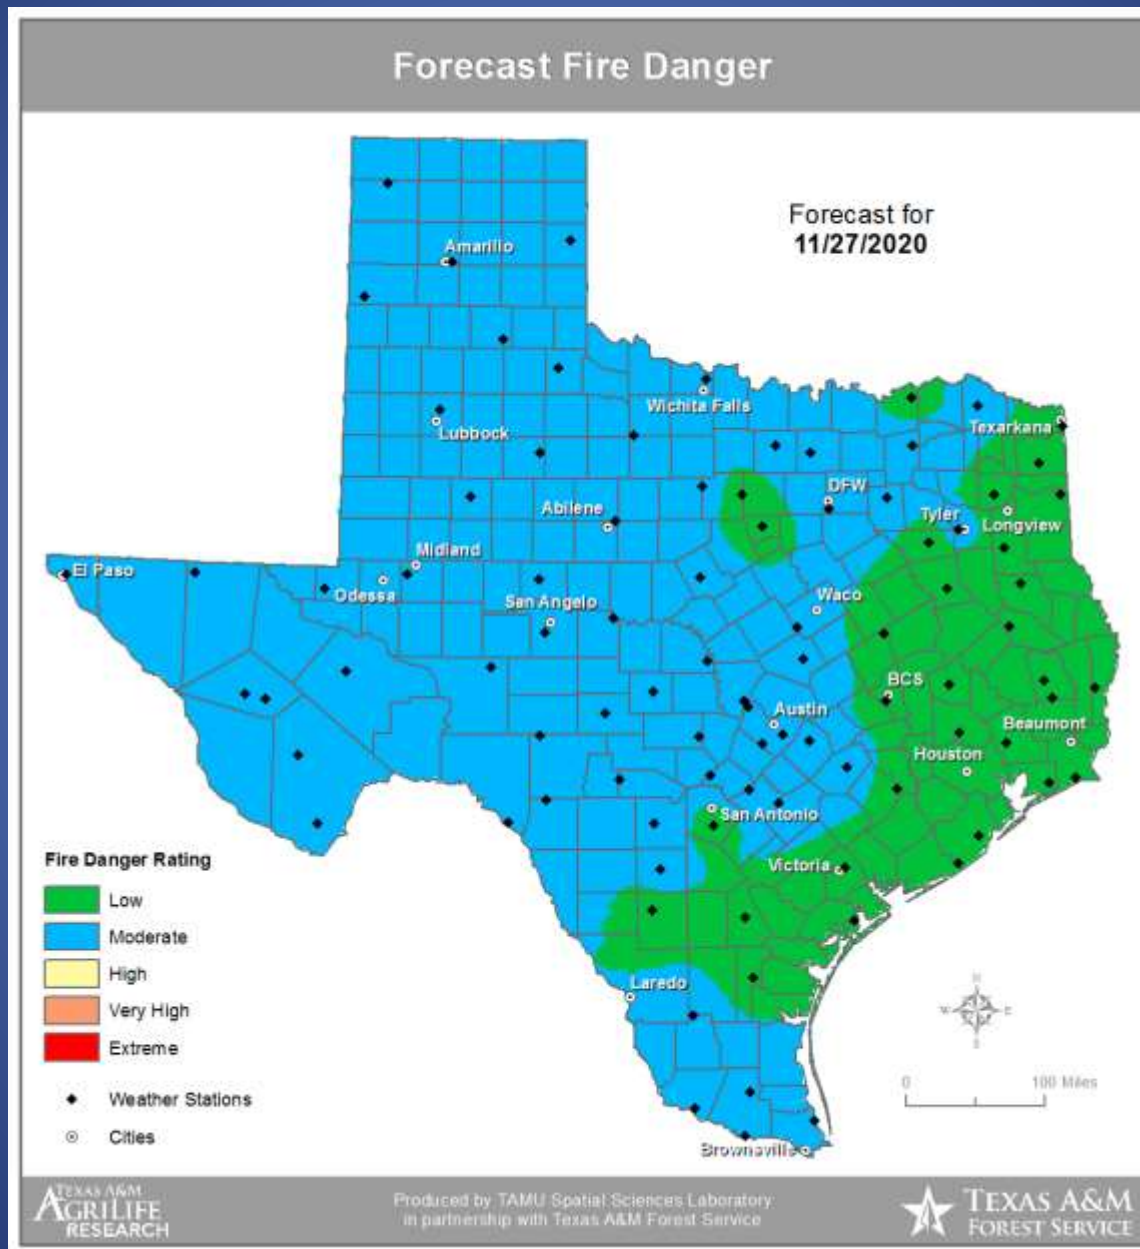

An upper level disturbance, cold front and deep moisture will combine to bring scattered to numerous showers and thunderstorms to South Texas today. The cold front is expected to stall across the area providing a focus for heavy rainfall with localized flooding possible. Highs will reach the mid 80s across the southern areas and low 80s across the north. The highs will occur ahead of the cold front with a slight cool down behind the front.

With a stalled cold front across South Texas tonight, numerous showers and thunderstorms with moderate to heavy rainfall can be expected. A few storms to possibly severe with strong gusty winds, hail and frequent lightning.
